**SUBJECT: ACCEPTANCE OF FAA STC ST04574AT issued November 20, 2023**

---

Sir:

This is in response to your request dated November 22, 2023, requesting Transport Canada approval of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft, may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This subject STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian registered aeronautical product.

This letter confirms formal acceptance of the referenced STC by Transport Canada. This acceptance reflects the models applicable at the time of application. Addition of models to the FAA STC – or an associated Approved Model List (AML) – constitutes a change and application is required in accordance with the FAA/TCCA Implementation Procedures in order to update this record.

Yours truly,
